

RB.038.B Professional Telehealth Services (Individual and Family Plan)

Original Implementation Date : 01/01/2024

Version [B] Date : 01/01/2024

Last Reviewed Date: 04/08/2025

PRODUCT VARIATIONS

This policy only applies to Jefferson Health Plans Individual and Family Plans line of business.

Application of Claim Payment Policy is determined by benefits and contracts. Benefits may vary based on product line, group, or contract. Payment may vary based on individual contract.

POLICY STATEMENT

Professional Telehealth Services are covered and eligible for reimbursement when all the following requirements are met:

- The service is medically necessary and is delivered using synchronous interactive audio and video telecommunications systems.
- The member seeking medical care is present at the time of service (i.e., real-time interaction between the member and the healthcare provider).
- Service must be rendered by Physicians (PCP or Specialist), Nurse Practitioners (NP's), Certified Registered Nurse Anesthetists (CRNA), Physician Assistants (PA's), Registered dietitians, Pharmacists, Nurse -midwives, Clinical Nurse specialist.
- Telephone based evaluations, Virtual check-ins and E-visits are not eligible for reimbursement consideration.
- Telehealth visits require the provider to use synchronous interactive audio and video telecommunication systems.

For telehealth visits (*synchronous interactive audio and video telecommunications system*) providers must report the appropriate Evaluation & Management (E&M) service that would have applied had the service been provided in the office. In addition, providers must use the appropriate telehealth modifier, 93, 95, GT. These types of visits shall be reimbursed in accordance with the provider's contract, - the Plans fee schedules and the member's benefit plan.

Urgent Care Centers (UCC's) are NOT eligible to receive payment for their case rate code (S9083) when Professional Telehealth Services are performed. If an UCC submits a claim with their case rate code when a service is rendered via telehealth, the claim will be denied. Only services rendered in person and face to face are eligible for case rate payment (S9083). UCC's are eligible for payment of Professional Telehealth Services if the policy criteria are met, and the above Telehealth Visit services are explicitly included in the provider's contract with the Plan.

POLICY GUIDELINES

1. Professional Telehealth Services would typically NOT occur more than once per week for the same episode of care. Providers may be subject to an audit if increased frequency occurs.
2. Authorization is not required for Professional Telehealth Services alone.
3. Providers are expected to report the most appropriate Current Procedural Terminology (CPT®), or Healthcare Common Procedure Coding System (HCPCS) code and applicable modifier for Professional Telehealth Services provided.
4. Professional providers performing telemedicine services must report the appropriate modifier and place of service to represent telemedicine services for payment.
5. Payment of Professional Telehealth Services may be impacted by CCI edits.
6. For providers paid on a capitation basis, services delivered through telehealth are considered included in capitation and are not separately payable.
7. The Plan reserves the right to audit Professional Telehealth Services to evaluate:
 - a. Compliance with this policy or related state and federal regulations.
 - b. Effectiveness and impact to the plan members.
 - c. Quality of care.

8. Nurse Practitioners (NP's), Certified Registered Nurse Anesthetists (CRNA) Physician Assistants (PA's), Registered dietitians Pharmacists, Nurse -midwives, & Clinical Nurse specialist are required to perform services within the scope of their license.
9. Professional Telehealth Services do not include text messages.
10. Providers must fully document services rendered and identify the telecommunication technology used in the patient's medical record.
11. When providers bill for Professional Telehealth Services in hospital-based clinics, they are not eligible for payment of facility fee component.

CODING

Note: The Current Procedural Terminology (CPT®), Healthcare Common Procedure Coding System (HCPCS), and the 10th revision of the International Statistical Classification of Diseases and Related Health Problems (ICD-10) codes that may be listed in this policy are for reference purposes only. Listing of a code in this policy does not imply that the service is covered and is not a guarantee of payment. Other policies and coverage guidelines may apply. When reporting services, providers/facilities should code to the highest level of specificity using the code that was in effect on the date the service was rendered. This list may not be all inclusive. CPT® is a registered trademark of the American Medical Association.

GT Modifier – GT Modifier applies when a visit was a synchronous telehealth service was administered real time through interactive audio and video telecommunication systems.

95 Modifier – 95 Modifier applies to describe a Telehealth session. A Synchronous Telemedicine Service Rendered via Real-Time Interactive Audio and Video Telecommunications System. Preferred modifier to be used per Centers for Medicare & Medicaid Services (CMS).

93 Modifier—93 Modifier applies to synchronous telehealth service delivered via telephone or other interactive audio only systems.

BENEFIT APPLICATION

This Reimbursement Policy does not constitute a description of benefits. Rather, this assists in the administration of the member's benefits which may vary by line of business. Applicable benefit documents govern which services/items are eligible for coverage, subject to benefit limits, or excluded completely from coverage.

DESCRIPTION OF SERVICES

- **E-Visits:** An established patient-initiated non-face-to-face communication through an online patient portal.
- **Interactive telecommunications system:** Multimedia communications equipment that includes, at a minimum, audio and video equipment permitting two-way, real time interactive communication between the patient and distant site physician or practitioner. Telephones, facsimile machines, and electronic mail systems do not meet the definition of an interactive telecommunications system.
- **Professional Telehealth Services:** Services performed by professional providers using technology to evaluate and communicate with members are limited to telehealth visits, virtual check-ins, telephone based-evaluations, and e-visits.
- **Synchronous interaction:** A real-time interaction between a patient and a health care provider located at a distant site.
- **Telephone-based evaluations:** Telephone services are non-face-to-face encounters originating from the established patient for evaluation or management of a problem provided by a qualified clinician.
- **Telehealth Visits:** A visit with a provider that uses synchronous interactive audio and video telecommunications system.
- **Virtual check-ins:** A brief (5-10-minute) check-in with a provider via telephone or other telecommunications device to determine whether an office visit or other service is needed for an established patient. A remote evaluation of recorded video and/or images submitted by an established patient.
