

Breast Pump Fact Sheet

Breast pump – Purchase

- 1) All members are eligible for breast pumps after delivery.
- 2) Member requests prescription from her physician, nurse practitioner or nurse midwife:
 - a. Prescription should include member's correct address and phone number for delivery of pump.
 - b. Member cannot receive a pump until she has delivered, but can ask her doctor to fill out the script beforehand.
 - c. Physician does not have to specify a medical indication on the script.
- 3) Provider or the member faxes script to:
 - Baird at 215-885-5070 for Medela electric breast pump
 - Associated Medical at 215-677-0816 for Evenflo single model breast pump
 - Or any other Health Partners participating DME provider
- 4) Member should receive breast pump within 48 hours of receipt of completed request.

Hospital Grade breast pump – Rental (baby in the NICU for extended stay)

- 1) Physician fills out script and letter of medical necessity.
- 2) Physician faxes script and letter to Health Partners DME department at 215-849-4749. DME department will coordinate with vendor to supply rental.
- 3) Member should receive hospital grade pump (depending on availability) within 48 hours of receipt of completed request.
- 4) The rental is usually approved for three (3) months.
