Rewards Program | 2018

# Partnering with you to motivate healthy choices

## + How you can help

When it comes to health, there is no greater level of trust than between a doctor and patient. That is why we want to partner with you to reward your Health Partners Plans Medicaid patients when they make healthy choices.

### HPP Reward activities:

**The Step-Up Challenge**  
**200 points** for winning the Step-Up walking challenge (age 10+)

**Well-adolescent checkup**  
**250 points** for completing a visit with a primary care provider (age 12-21)

**Lead screening**  
**200 points** for completing a lead screening (before age 2)

**Diabetes eye exam**  
**200 points** for getting a retinal eye exam (age 18-75)

**Diabetes HbA1c test**  
**200 points** for taking an annual HbA1c test (age 18-75)

**Diabetes PCP visit**  
**200 points** for getting a checkup with a primary care provider (age 18-75)

**Diabetes Learning Activity**  
**100 points** for completing a learning activity about diabetes (age 18-75)

# How HPP Rewards works

HPP Rewards is part of Health Partners Plans' (HPP) Medicaid program. It is designed to motivate personal health responsibility. All HPP Medicaid members are automatically enrolled in HPP Rewards and can earn points for completing certain healthy activities.

## Patients earn rewards after you file a claim

After a patient completes a healthy activity, it takes about 3 months for patients to receive their reward points.

## Patients spend points in the HPP Rewards catalog

HPP Medicaid patients can use their reward points to shop for hundreds of fun, healthy items from the catalog.

Visit [www.hpprewards.com](http://www.hpprewards.com) for more information.

### 1st prenatal care visit

**250 points** for a prenatal checkup in the 1st trimester or within 42 days of enrollment

### Blood pressure medication mgmt.

Up to **600 points** for refilling blood pressure medication as prescribed (age 18-85)

### Pregnancy dental visit

**250 points** for getting a dental checkup during pregnancy

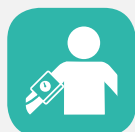

### Blood pressure PCP visit

**200 points** for completing a checkup with a primary care provider (age 18-85)

### Postpartum visit

**250 points** for attending a postpartum checkup 21-56 days after delivery

### Blood Pressure Learning Activity

**100 points** for completing a learning activity about hypertension (age 18-85)
