

Health Partners Plans

December 21, 2020

Dear Provider,

RE: COVID-19 Vaccine Administration

As you are aware, the Pennsylvania market received their first supply of the FDA-authorized vaccine serums this month. The cost of these vaccine serums will be paid for by the U.S. government.

Please see the table below for the appropriate procedure codes to be used when billing Health Partners Plans (HPP) for the administration of COVID-19 vaccines administered to HPP members and the reimbursements applicable to those codes. HPP will follow both the Centers for Medicaid & Medicare Services (CMS) and the Pennsylvania Department of Human Services (DHS) policies related to coding and reimbursement.

It is important to note that the coding and reimbursement detailed in this communication is applicable to all provider types and places of service.

Note for Urgent Care Centers - Vaccine administration should not be billed as an urgent care visit. Urgent Care Centers will require a contract amendment for the vaccine administration codes and will receive additional communication.
