COVID-19 Vaccine Provider Information

Provider Enrollment

In order to enroll sites are required to:

- Be able to report doses administered to the PhilaVax IIS
- Have cold storage units (standard fridge or freezer) with temperature monitoring (i.e., Digital Data Logger, DDL)
- Attend CDC and Ordering Training to gain access to PhilaVax

Vaccine Storage and Handling

- **Ultra-low Cold Storage is not required**
- **Pfizer:** Can be stored in a standard freezer for 2 weeks or a standard fridge for 31 days
- Providers are able to order smaller allocations of all three vaccines for smaller clinics
- **PDPH can provide DDLs to providers who need one**

COVID-19 Vaccine Administration

Providers May

- Seek reimbursement for administrative fees via: private insurance, Medicaid/Medicare, or the HRSA uninsured program
- Order COVID-19 vaccines at no-cost to the provider once enrolled

Providers May NOT

- Charge an office-visit, co-pay, or out-of-pocket cost for COVID-19 vaccination
- Seek reimbursement through balance billing from vaccine recipient
- Deny vaccination to individuals without insurance, a SS number, and/or proof of citizenship
