Diagnosis (submit documentation):				Diagnosis code ( <i>required</i> ):		
4	Chec		•	-	st.	
1.	<ul> <li>For a non-preferred topical calcineurin inhibitor:</li> <li>Tried and failed or has a contraindication or an intolerance to the preferred topical calcineurin inhibitors (Refer to <a href="https://papdl.com/preferred-drug-list">https://papdl.com/preferred-drug-list</a> for a list of preferred and non-preferred drugs in this class.)</li> </ul>					
2.	2. For a topical JAK inhibitor (eg, Opzelura [ruxolitinib]) OR a topical PDE4 inhibitor (eg, Eucrisa [crisaborole]): Tried and failed or has a contraindication or an intolerance to a 4-week trial of a topical corticosteroid approved or medically accepted for the beneficiary's diagnosis Tried and failed or has a contraindication or an intolerance to an 8-week trial of a topical calcineurin inhibitor (eg, pimecrolimus, tacrolimus) approved or medically accepted for the beneficiary's diagnosis					
3.	3. For <u>all other non-preferred TOPICAL Immunomodulators</u> , <u>Atopic Dermatitis</u> : Tried and failed or has a contraindication or an intolerance to the preferred topical Immunomodulators, Atopic Dermatitis approved or medically accepted for the beneficiary's diagnosis (Refer to <a href="https://papdl.com/preferred-drug-list">https://papdl.com/preferred-drug-list</a> for a list of preferred and non-preferred drugs in this class.)					
4.	<ul> <li>4. For a targeted systemic Immunomodulator, Atopic Dermatitis (eg, Adbry, Cibinqo, Rinvoq):         <ul> <li>Is prescribed the medication by or in consultation with an appropriate specialist (eg, dermatologist)</li> <li>For the treatment of atopic dermatitis: Tried and failed or has a contraindication or an intolerance to both of the following (check all that apply):</li> </ul> </li> </ul>					

## FAX FORM AND CLINICAL DOCUMENTATION

	One of the following:
	For the face, skin folds, or other critical areas, a 4-week trial of a low-potency (or higher) topical corticosteroid
	For other body areas, a 4-week trial of a medium potency or higher topical corticosteroid
	An 8-week trial of a topical calcineurin inhibitor (eg, pimecrolimus, tacrolimus)
	☐ For the treatment of all other diagnoses – specify diagnosis:
	List other treatments tried (including start/stop dates, dose, outcomes, etc.):
	For an <u>oral JAK inhibitor</u> (eg, Cibinqo, Rinvoq):
	Tried and failed at least one biologic as recommended in the JAK inhibitor's package labeling
	Has a contraindication or an intolerance to biologics as recommended in the JAK inhibitor's package labeling
	☐ Is currently taking an oral JAK inhibitor
	☐ For a NON-PREFERRED targeted systemic Immunomodulator, Atopic Dermatitis:
	Tried and failed or has a contraindication or intolerance to the preferred targeted systemic Immunomodulators, Atopic Dermatitis
	approved or medically accepted for the beneficiary's condition (Refer to https://papdl.com/preferred-drug-list for a list of preferred
	and non-preferred drugs in this class.)
	Is currently using the requested non-preferred targeted systemic Immunomodulator, Atopic Dermatitis
	What is the date of the beneficiary's last dose?
	RENEWAL requests
1.	For a non-preferred topical calcineurin inhibitor:
	Has documented evidence of improvement of disease severity
	Tried and failed or has a contraindication or an intolerance to the preferred topical calcineurin inhibitors (Refer to
